### April 2026

This month, we are continuing to follow the children's interests as they guide our learning and play. We are encouraging curiosity and giving the children opportunities to explore and dive deeper into what excites them. As part of our learning, we will also be discussing Earth Day, focusing on the importance of caring for our environment. The children will learn about recycling, reducing waste, and how small actions can make a big difference. We are also planning a community clean up to help instill a sense of responsibility and pride in keeping our surroundings clean.

With the changing weather, it can be tricky to know what to send. We do go outside daily, so it is important children are dressed for the conditions. When there is snow, please send full winter gear. As the snow melts, rubber boots and splash pants will help keep children dry and comfortable.

If your child is sick or you no longer need care please contact us through Lillio prior to time of care.
